

WATER GETTING INTO YOUR HOME

Are there any signs of water getting into your home?			
			
Condensation on the windows	Damp rising from the ground	Mould growth on walls, ceilings or furniture	Water in rooms on the level closest to the roof (upstairs in a house)
			
Water in a room with chimney breast	Water on window ledges	Water near doors to outside	Leaks in the kitchen
			
Leaks in the bathroom	Water in the attic	Water coming through ceilings when it rains	Water coming through ceilings when it is not raining
